

A new era of windows!

KÖMMERLING 88

Premium centre seal system – AluClip

KÖMMERLING®

MORE ELEGANCE WITH ALUCLIP.

KÖMMERLING 88 is the premium window in a new era of window technology. It offers groundbreaking heat insulation properties, is a trendsetter in design and a pioneer in quality and security. Thanks to its modular concept and innovative upgrade technologies, it also offers impressive options for individualisation.

KÖMMERLING 88 AluClip.

The aluminium facing shell combines elegant aluminium design with an almost unlimited choice of colours and the optimum heat insulating values of the modern KÖMMERLING 88 PVC profile system.

The best of two worlds.

Aluminium is one of the best window materials around. It is elegant, weatherproof and easy to clean. PVC, on the other hand, provides optimum heat insulation and soundproofing, plus high functional reliability. KÖMMERLING 88 AluClip unites both materials of aluminium and PVC in perfect harmony.

KÖMMERLING 88 - AluClip

Premium window and door system with contemporary installation depth of 88 mm and aluminium facing shells for individual colour schemes.

- Linear, recessed window design with butt-jointed aluminium profiles.
- Outstanding heat insulation compared with aluminium windows.
- Wide range of glazing options up to 58 mm thick, from triple glazing to special functional glazing.
- Aluminium look on the outside, neutral white on the inside.
- Practically unlimited choice of aluminium shell colours with finishing techniques including Eloxal and powder coating.
- Sustainable use of aluminium. Easy care, durable and robust.
